

VISA GUIDELINES

Getting a visa in Thailand, like any other country, can be a time-consuming process, and our team is happy to offer support and advice every step of the way.

Types of Visa

The school will support the application of ED-visas and O-visas for pupils of Si Ri Panya International School ages 5-17 years old and their parents.

- **Pupil Visa – Non-Immigrant ‘ED’ type visa (ED-visa)**

A visa which allows a child holding a foreign passport to study in Thailand within an Accredited International School.

- **Parent Visa – Non-Immigrant ‘O’ type visa (O-visa)**

A visa which allows a parent holding a foreign passport to accompany one child who is studying in Thailand and has been issued with a pupil Education Visa (ED-visa). Each pupil ED-visa entitles a parent to apply for an O-visa to accompany their child.

One ED-visa = **one** Non-O visa

Two ED-visas (two children) = **two** Non-O visas

Visa Regulations

- No documents will be issued or visa processes completed by the school until the school term fees and security deposit have been paid in full.
- No paid or unpaid work can be undertaken when residing in Thailand using these visas.
- The school cannot support the application of any other types of visas, such as business visa, working visa, retirement visas, investment visas, tourist visas etc.
- Passports should be valid for **at least one year, with enough blank pages for the visa stamps.**
- Please note that during school holidays the visa processing can be delayed due to staff holidays.

Overview of steps required

Step 1 – Initial single-entry ED-visa or O-visa made **outside** of Thailand (90 days)

Step 2 – One-year extension or One-year renewal of ED-visa or O-visa at Phangan Immigration office

Step 1 - Initial single-entry ED-visa or O-visa made outside of Thailand (90 days)

The school will issue a Certificate of Enrolment to confirm that your child is enrolled at the school. **This letter can only be issued once.** Once the Certificate of Enrollment has been issued the person(s) requiring the visa must travel out of Thailand to a Thai embassy or consulate.

The following documents are required by the school:

1. History check form pupil 4 pages ([click here to download](#))
2. History check form parent 4 pages ([click here to download](#))
3. Two passport photos of pupil 4cm x 6cm
4. Two passport photos of parent 4cm x 6cm
5. Copy of Pupils passport – including a copy of every visa stamp page including arrival card T.M.6 if you are already in Thailand ([click here for an example](#))
6. Copy of parent's passport – including a copy of every visa stamp page including arrival card T.M.6 if you are already in Thailand ([click here for an example](#))

7. Bank statement from Thailand or your home country showing the equivalent of 500,000 baht. Statement must show your full name, the date and the amount.
8. Copy of pupil's birth certificate in English.

Note: A single-entry ED-visa or O-visa made outside of Thailand allows you to stay in Thailand for 90 days, but it can be extended to a one-year visa through the local Immigration Office in Phangan.

Note: Upon arrival in Thailand please open up a Thai bank account straight away and deposit the necessary funds for your 1-year extension. Please come to the school office and we will provide you with a letter for Krung Thai bank. Take the school letter along with your original passports, child's birth certificate with an English translation and a house rental contract to Krung Thai bank who will help you open an account.

Note: The history check form is required by the Thai immigration department and must be officially authorised by the Department of Education to be valid. The form is sent by the school with all supporting documents to the Department of Education on the mainland. The history check form will be checked and then stamped by the Department of Education and then sent back to the school. Approval and stamping of the history check form by the Department of Education can take between 45 and 60 days. The stamped history check form is proof that your child is studying at the approved international school. We cannot start the process until we have received all your documents.

Note: Your initial single-entry ED-visa or O-visa can be issued by any Thai Embassy outside of Thailand. However, the Thai Embassy location must be specified at the time of application and cannot be changed once the official stamped documents have been returned by the department of education. If the location needs to be altered then new documents and a history check form will have to be sent again for approval.

Note: Thai Embassies will have different processing times and rules depending on the country in which they are operating. Please check with the individual Thai Embassies for detailed information about their visa rules and structures. The visa issued should be a single-entry with a 90 days stamp.

Note: The list of documents required varies from one consulate to another, and it is important to check with them first to ensure that you have everything you need. We are happy to offer guidance wherever we can, but with more than 25 nationalities represented we cannot stay current on each country's evolving regulations.

Single or Multiple Re-Entry Permits

It is highly advisable that you apply for a single or multiple re-entry permit once your one-year visa has been granted. This can be done at the same time that you collect your visa. A single re-entry permit allows you to re-enter Thailand once, a multiple re-entry visa allows you to re-enter Thailand multiple times for the duration of your one-year visa.

Note: If you travel out of Thailand without a re-entry permit, your one-year visa will automatically be cancelled.
